LabVIEW Portfolio Example – Hide Wifi Networks

Portfolio: *Code Examples\LabVIEW\Code - Hide Wifi Networks.zip*
Access: *justinreina.com?util*

Need:

A personal utility to hide visible WiFi networks on my laptop, where in my current locale 30-40+ secured WiFi networks were typically visible complicating access to my personal networks (lots of scrolling!)

Task:

Display only public & personal WiFi networks for connection

Appendix A – File Storage

I try to keep my projects organized consistently & cleanly, following common form see below –
